NOTICE

FINAL SEMESTER PROJECTS

All final year students are advised that they shall do their final semester projects in Manufacturing or Production or Business or Trading Companies. The Chairman/Chancellor has made arrangements with such companies for the students to do a real time, live projects. Such of those students who have already identified their projects in any such companies should inform their Heads of the Departments (HOD). Otherwise, students shall do the projects in the companies allotted by the Management.

Those who are not willing to do such projects in companies may do their projects in the institution itself. "Bought-out" project reports from the market will be totally rejected.
